

UNDERSTANDING INTEGRATED TRANSPORT/LAND USE MODELS

WEBINAR SERIES & SPEAKERS

Part 1: Land Use Modeling Frameworks, Practice and Experience

- February 19, 2010 (3:00-4:00 ET) - *Basic Approaches to Land Use Models Employed Throughout the US. Includes discussions of challenges, opportunities, results and sensitivities*
 - Michael Clay, Auburn University
 - Zhong-Ren Peng- University of Florida
 - Wade White- Whitehouse Group
- March 19, 2010(3:00-4:00 ET) -- *Data Development and Maintenance- A discussion of the types of data used in land use models, data management, usability and data quality*
 - Mary Stallings- Grimail Crawford
 - Stephen Lawe- Resource Systems Group
 - Wade White- Whitehouse Group

Part 2: Integrated Transport/Land Use Models

- March 26, 2010 (3:00-4:00 ET)- *Transport Accessibility and Other Measures- A discussion of the common and not-so-common items found in many integrated models*
 - Wade White- Whitehouse Group
- April 16, 2010 (3:00-4:00 ET) -*Feedback- Concepts & Implications of Design Approaches*
 - Wade White- Whitehouse Group

Part 3: Policy Evaluation

- April 30, 2010 (3:00-4:00 ET) -*Real-world Experiences in Policy Evaluation and Model Usefulness- A candid discussion from veteran's in land use modeling discussing what worked, what didn't and what lessons were learned*
 - Gordon Garry, SACOG
 - Becky Knudson, Oregon DOT
 - Brian Gregor, Oregon DOT
- May 7, 2010 (3:00-4:00 ET) -*Incorporating Policies and Sensitivities to Meet Florida's Needs- A discussion of state and federal issues important to consider when charting out the course of Florida's preferred approach*
 - Kathy Neill- FDOT Policy Perspective
 - Howard Glassman- MPOAC Perspective
 - Chris Stahl – FL DEP Perspective

Part 4: Rule-based Models

- May 14, 2010 (3:00-4:00 ET) –*The roles, data and applicability of rule-based land use models in practice*
 - Richard Klosterman, WhatIf? Inc.
 - Paul Van Buskirk, Van Buskirk, Ryffel and Associates
